

Surgical Closed Case Carts

Revolutionary! Ergonomically designed to be lightweight and easy to handle.

- Cool Touch Handles - ergonomic, polymer handle is cooler to the touch than stainless steel after emerging from the cart washer.
- Windowed Doors – see inside without opening
- Casters – these maintenance-free casters improve maneuverability and require 32% less push/pull force than standard case carts; include direction lock
- Shelf Lock -- new two-position, spring-loaded arm mechanism securely locks the shelf in the extended or closed position; easily and safely load the cart without movement from the shelf.
